You bet- in some of our internal meetings on Hickman's Tonopah facility, we were asked to follow up with you regarding the possible use of the emission calcs/factors from Central Valley Egg. Richard and I had talked in general terms about Tonopah's PTE using that methodology, and whether or not the Tonopah facility has the corresponding henhouse design/nutrient management practices/water spray/etc in place. Gerardo and I would like to talk about it in more detail, and if it would be possible to update the permit and TSD to reflect that.

If you could include an agenda or topic of discussion it would be appreciated. I'd like to come prepared.

-Todd

Looks like we could do it late on Thursday; say 4:00.

Subject: Availability for Hickman call

Hi Richard,

Gerardo asked me to check to see if you had availability this week for a 15-30 minute call on Hickman's Tonopah facility. Our availability is looking like tomorrow morning before 9 am, and Thursday after 1:30 pm. We may be able to do earlier in the morning with enough lead time if none of those times work.

Thanks,

Eugene
